Hi Michele and Rick,

Sorry they contacted you, Michele. I spoke to Clary Coutu, of Keolis yesterday and she was to get back to me with the info. they want to review. Last week I worked on a change in operator, from MBCR to Keolis for this permit and as well as for MA0028941 (I think this is the #). Make a long story short, both files are now with Diane Boisclair for input new operator info. into ICIS.

Rick, thanks for looking into it. I'll get the files back and set up a time for them to come in next week.

Thanks and I'll follow up and keep you posted.
Olga

Olga: Hi

The database shows that you have the 1A for MA0003590.

I see the 2004 Application in 1B.

I also see a folder for Permit writers reference including a 308 request for information.

What do we want to tell Michele.

Not sure if this is an official FOIA.

Thank you, Rick

Rick Carvalho

Hi Richard-

I received a call from the environmental consultant for the new operator (Keolis) of the MBTA Commuter Rail. Several years ago I wrote the permit so that's why they contacted me. They would like to do a file review so they can see what was submitted prior. They are looking for the old permit application and thing that might have been submitted during the last permit re-issuance process. As I think you know, I work from home on medical flexiplace. Could you take a look and let me know if the file is available and confirm that the application is in there? Also, should I just have the consultant contact you to schedule the file review once we confirm the information is available.

Thanks,
-Michele Barden
